PREGNO

Manutenzione

LEGNO E FINITURE SPECIALI

Non utilizzare detergenti acidi o alcali.

Non usare agenti abrasivi, lana d'acciaio, detergenti per pentole o simili. Non usare solventi per pulire le superfici verniciate.

Oggetti appuntiti o taglienti, come lame o coltelli, possono danneggiare (graffiare) la superficie. Qualsiasi cosa calda o umida causerà danni alla superficie.

Pulire le superfici verniciate con un panno pulito, morbido e privo di lanugine per evitare l'abrasione con particelle di sporco.

Per superfici di vernice con finitura morbida, utilizzare un panno morbido, privo di lanugine e leggermente umido.

Se molto sporchi, le superfici verniciate possono essere pulite più facilmente con un detergente neutro (privo di silicone).

Non utilizzare lucidi per mobili o altri prodotti per la cura per pulire le superfici di vernice.

È quindi essenziale strofinare delicatamente la superficie asciutta, in modo che non vi sia umidità residua.

Pulire regolarmente le superfici verniciate con un panno morbido e privo di lanugine per rimuovere la polvere.

Maintenance

WOOD AND SPECIAL FINISHES

Do not use acid or alkali-based cleaners.

Do not use scouring agents, steel wool, pot cleaners or similar. Do not use solvents to clean painted surfaces.

Pointed or sharp objects, such as blades or knives, can damage (scratch) the surface. Anything hot or damp will cause damage to the surface.

Clean painted surfaces with a clean, soft, lint-free cloth to avoid abrasion with particles of dirt.

For soft-finish paint surfaces, use a soft, lint-free, slightly damp cloth.

If heavily soiled, paint surfaces can be cleaned more easily with a neutral (silicone-free) cleaning agent.

Do not use furniture polish or other care products to clean soft-finish paint surfaces.

It is then essential to rub the dry surface, so that there is no residual moisture.

Clean painted surfaces regularly with a soft, lint-free cloth to remove dust.
